

# 1. Identification

Product identifier	NOVOCOAT™ SC1100 PRIMER/SEALER PART B HARDENER, NOVOLITE REPAIR MORTAR PART B HARDENER
Other means of identification	None.
Recommended use	Not available.
<b>Recommended restrictions</b>	None known.
Manufacturer/Importer/Suppl	ier/Distributor information
Company Name	ErgonArmor, a division of Ergon Asphalt & Emulsions, Inc.
Address	2829 Lakeland Drive
	Jackson, MS 39232
	USA
After hours telephone number	1-800-222-7122
Normal work hours telephone number	1-877-982-7667
Website	www.ergonarmor.com
E-mail	sds@ergon.com
Emergency 24-hour telephone number	CHEMTREC: North America 1-800-424-9300 International 1-800-527-3887
Information on operation hours	8:00 a.m. to 5:00 p.m.
2 Hazard(s) identificatio	n

#### 2. Hazard(s) identification

Physical hazards	Not classified.	
, Health hazards	Skin corrosion/irritation	Category 1
	Serious eye damage/eye irritation	Category 1
	Sensitization, skin	Category 1
Environmental hazards	Not classified.	
OSHA defined hazards	Not classified.	
Label elements		
Signal word	Danger	
Hazard statement	Causes severe skin burns and eye damage. Causes serious eye damage. May cause an allergic skin reaction.	
Precautionary statement	:	
Prevention	Do not breathe dust/fume/gas/mist/vapors/spray. Wash thoroughly after handling. Wear protective gloves/protective clothing/eye protection/face protection. Contaminated work clothing must not be allowed out of the workplace.	
Response	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower. IF ON SKIN: Gently wash with plenty of soap and water. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. IF SWALLOWED: Rinse mouth. Do NOT induce vomiting. Wash contaminated clothing before reuse. IF INHALED: Remove person to fresh air and keep comfortable for breathing. Immediately call a POISON CENTER/doctor. Specific treatment see Section 4 of this SDS. If skin irritation or rash occurs: Get medical advice/attention.	
	breathing. Immediately call a POISON C	ENTER/doctor. Specific treatment see Section 4 of this
Storage	breathing. Immediately call a POISON C	ENTER/doctor. Specific treatment see Section 4 of this
Storage Disposal	breathing. Immediately call a POISON C SDS. If skin irritation or rash occurs: Get Store locked up.	ENTER/doctor. Specific treatment see Section 4 of this

# 3. Composition/information on ingredients

#### Mixtures

Mixtures			
Chemical name	Common name and synonyms	CAS number	%
FATTY ACIDS, TALL-OIL REACT PRODUCTS WITH TETRAETHYLENEPENTAMINE	ION	68605-86-7	40 - 50
ALCOHOLS, C9-11, ETHOXYLA	TED	68439-46-3	10 - 20
AMINE		Proprietary	10 - 20
POLYAMIDOAMINE		Proprietary	10 - 20
3,6,9-TRIAZAUNDECAMETHYLE IAMINE TETRAETHYLENEPENTAMINE	ENED	112-57-2	1 - 10
POLYETHYLENEAMINE		Proprietary	< 1
Other components below repor	table levels		8.72604
4. First-aid measures			
Inhalation	Remove victim to fresh air and keep at rest ir artificial respiration if needed. Call a physiciar		
Skin contact	Remove contaminated clothing immediately and wash skin with soap and water. Chemical burns must be treated by a physician. Wash contaminated clothing before reuse. Call a physician or poison control center immediately.		
Eye contact	Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a physician or poison control center immediately.		
Ingestion	Rinse mouth thoroughly. Do not induce vomiting. If vomiting occurs, keep head low so that stomach content doesn't get into the lungs. Call a physician or poison control center immediate		
Most important symptoms/effects, acute and delayed	May cause drowsiness and dizziness. Headache. Nausea, vomiting. Burning pain and severe corrosive skin damage. Abdominal pain. Causes serious eye damage. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindnes could result. Difficulty in breathing. May cause respiratory irritation.		
Indication of immediate medical attention and special treatment needed	<ul> <li>Provide general supportive measures and treat symptomatically. Chemical burns: Flush with wate immediately. While flushing, remove clothes which do not adhere to affected area. Call an ambulance. Continue flushing during transport to hospital. Keep victim under observation. Symptoms may be delayed.</li> </ul>		ed area. Call an
General information	In the case of accident or if you feel unwell, seek medical advice immediately (show the label where possible). IF exposed or concerned: Get medical advice/attention. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. It is safety data sheet to the doctor in attendance. Wash contaminated clothing before reuse.		nsure that medical rotect themselves. Show

# 5. Fire-fighting measures

Suitable extinguishing media	Water fog. Alcohol resistant foam. Dry chemical powder. Carbon dioxide (CO2).
Unsuitable extinguishing media	Do not use water jet as an extinguisher, as this will spread the fire.
Specific hazards arising from the chemical	During fire, gases hazardous to health may be formed.
Special protective equipment and precautions for firefighters	Self-contained breathing apparatus and full protective clothing must be worn in case of fire.
Fire fighting equipment/instructions	In the event of fire, cool tanks with water spray. Use water spray to cool unopened containers. Cool containers exposed to flames with water until well after the fire is out. Water runoff can cause environmental damage.
Specific methods	Use standard firefighting procedures and consider the hazards of other involved materials.
General fire hazards	No unusual fire or explosion hazards noted.

#### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures	Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Keep out of low areas. Wear appropriate protective equipment and clothing during clean-up. Do not breathe mist/vapors. Fully encapsulating, vapor protective clothing should be worn for spills and leaks with no fire. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ventilate closed spaces before entering them. Local authorities should be advised if significant spillages cannot be contained. Ensure adequate ventilation. For personal protection, see section 8 of the SDS.
Methods and materials for containment and cleaning up	Extinguish all flames in the vicinity. Prevent product from entering drains.
	Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Cover with plastic sheet to prevent spreading. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.
	Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.
	Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.
Environmental precautions	Do not contaminate water. Avoid discharge into drains, water courses or onto the ground.
7. Handling and storage	
Precautions for safe handling	Provide adequate ventilation. Do not breathe dust/fume/gas/mist/vapors/spray. Do not get in eyes, on skin, or on clothing. Avoid prolonged exposure. Wear appropriate personal protective equipment. Do not use in areas without adequate ventilation. When using, do not eat, drink or smoke. Wash thoroughly after handling. Observe good industrial hygiene practices. Do not empty into drains. Avoid release to the environment.
Conditions for safe storage, including any incompatibilities	Store locked up. Keep container tightly closed. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

## 8. Exposure controls/personal protection

#### **Occupational exposure limits**

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

Components	ronmental Exposure Level (WEEL) ( Type	Value	Form	
3,6,9-TRIAZAUNDECAMETH YEEIRABIIAHYINEENEPENTAMIN E (CAS 112-57-2)	TWA	5 mg/m3	Aerosol.	
		1 ppm	Aerosol.	
ological limit values	No biological exposure limits noted fo	r the ingredient(s).		
cposure guidelines				
US WEEL Guides: Skin desi	gnation			
3,6,9-TRIAZAUNDECAME <sup>-</sup> TETRAETHYLENEPENTAM		e absorbed through the skin.		
ppropriate engineering ontrols	Provide adequate ventilation, including appropriate local extraction, to ensure that the defined occupational exposure limit is not exceeded. Eye wash facilities and emergency shower must be available when handling this product.			
dividual protection measure Eye/face protection	s, such as personal protective equi Chemical goggles and face shield are			
Skin protection				
Hand protection	Chemical resistant gloves are recomm gloves.	ended. If contact with forea	rms is likely wear gauntlet style	
Other	Wear appropriate chemical resistant of	lothing.		
Respiratory protection	When workers are facing concentration certified respirators.	ns above the exposure limit	they must use appropriate	
Thermal hazards	Wear appropriate thermal protective of	lothing, when necessary.		

General hygiene considerations

When using, do not eat, drink or smoke. Avoid contact with eyes. Avoid contact with skin. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

# 9. Physical and chemical properties

	•	• •			
Арр	pearance	Liquid.			
	Physical state	Liquid.			
	Form	Liquid.			
	Color	Golden to Light Amber			
Odo	or	Ammoniacal. Amine-like.			
Odd	or threshold	Not available.			
pН		Alkaline			
Mel	lting point/freezing point	-22 °F (-30 °C) estimated			
	tial boiling point and ling range	Not available.			
Flas	sh point	325.0 °F (162.8 °C) estimated			
Eva	poration rate	Not available.			
Flar	mmability (solid, gas)	Not applicable.			
Upp	per/lower flammability or e	explosive limits			
	Explosive limit - lower (%)	Not available.			
	Explosive limit - upper (%)	Not available.			
Vap	oor pressure	Not available.			
Vap	oor density	Not available.

Aut	o-ignition temperature	610 °F (321.11 °C) estimated			
Dec	composition temperature	Not available.			
Viso	cosity	Not available.			
Oth	er information				
	Density	7.98 estimated			
	Specific gravity	0.9576 estimated			
10	. Stability and reactiv	ity			
Dee	a the state of	The preduct is stable and non reactive under normal conditions of use starses and transport			

The product is stable and non-reactive under normal conditions of use, storage and transport.
Stable at normal conditions.
Hazardous polymerization does not occur.
Contact with incompatible materials.
Peroxides. Strong oxidizing agents. This product may react with strong acids. This product may react with strong alkalies. Chlorine.
If product is burned hazardous gases such as oxides of carbon and nitrogen and various hydrocarbons may be produced.

# **11.** Toxicological information

### Information on likely routes of exposure

Inhalation	Prolonged inhalation may be harmful.
Skin contact	Causes severe skin burns and eye damage. May cause an allergic skin reaction.
Eye contact	Causes serious eye damage.
Ingestion	Expected to be a low ingestion hazard.

Symptoms related to the physical, chemical and toxicological characteristics	include stingi		uses serious eye damage. Symptoms may Irred vision. Permanent eye damage including ion. Difficulty in breathing.
Information on toxicological	effects

**Persistence and degradability** No data is available on the degradability of any ingredients in the mixture.

#### **Bioaccumulative potential**

Partition coefficient n-octanol / water (log Kow)3,6,9-TRIAZAUNDECAMETHYLENEDIAMINE1.503TETRAETHYLENEPENTAMINE		
Mobility in soil	No data available.	
Other adverse effects	No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.	

# 13. Disposal considerations

Disposal instructions	Dispose of this material and its container to hazardous or special waste collection point. Do not allow this material to drain into sewers/water supplies.
Local disposal regulations	Dispose in accordance with all applicable regulations.
Hazardous waste code	D002: Waste Corrosive material [pH $\leq$ 2 or $=>12.5$ , or corrosive to steel] The waste code should be assigned in discussion between the user, the producer and the waste disposal company.
Waste from residues / unused products	Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).
Contaminated packaging	Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal. Offer rinsed packaging material to local recycling facilities.
